Annex I

Verbatim transcription of the third point of the proposal of agreements on the agenda items of the Laboratorio Reig Jofre, S.A., Ordinary and Extraordinary General Shareholders' Meeting, approved at a meeting held on June 23, 2016.

"THIRD - Long-term loyalty plan for Directors and Executives of the Company, with the authorization and delegation of powers to the Board of Directors in relation to this matter.

To approve the terms that will govern a long-term loyalty plan for certain of the Company's management staff and directors, consisting of an options programme relative to the Company's shares (hereinafter the "**Plan**"), in the terms indicated in the Board of Directors Explanatory Report on this item of the Agenda, with the following main features:

- Amount: Up to a maximum of 240,000 options for all years and all the beneficiaries of the Plan, to be delivered with the value dates of January 1, 2017, 2018 and 2019, and which will carry to the right to acquire the same number of shares.

During each of the years, up to a third of the established maximum number of shares may be delivered. Notwithstanding the above, and in the event that in certain years a lower number of shares than the previously-referred to limit are delivered (i.e., a lower number than that corresponding to one third of the maximum number of options), the Board of Directors shall be empowered to accumulate the options that were not delivered in the year prior with the options to be delivered in the corresponding year in question, or in the following where appropriate. In such cases, the limit of one third of the maximum number of options per year may be exceeded, but in no case may the total number of options delivered exceed the established limit of 240,000 options.

Each year, the Board of Directors, at the proposal of the Appointments and Remuneration Committee, will decide the beneficiaries of the Plan and the number of options to be granted to each of them, up to the established maximum.

- Delivery of options: The delivery of the stock options by the Board of Directors will be effected within 12 months of the respective value dates.

- Consolidation of options: The beneficiary will progressively and proportionally consolidate the rights to their options over the three years following the date of concession, at a rate of 1/3 during this period.
- Beneficiaries: The Company's directors and certain management staff may be beneficiaries of the Plan. The Company's directors will not form part of the Plan in 2017.
- Strike price: The strike price of each option will be the Company's average share price of during the six months immediately preceding the Plan's respective value dates.
- Coverage: The Company may allocate the shares of which its treasury stock is comprised to the coverage of the Plan, or may employ other appropriate financial instruments as determined by the Company. The delivery of the shares shall be effected either by the Company itself or by a third party in accordance with the coverage systems adopted by the Board of Directors, subsequent to compliance with any legal requirements that may be applicable under the coverage system adopted.
- Term: The Plan's validity will be extended from January 1, 2017 to (i) the moment in which the beneficiaries have exercised the options granted, or (ii) during the period of ten years as of the effective date, whichever falls sooner.

To authorize the Board of Directors, with express powers of substitution in favour of the Appointments and Remuneration Committee, for the application, implementation and development of these agreements, including the establishment of anti-dilution rules that permit the adaptation of this options system in order to retain their value in the event of a change in the Company's share capital. The Board of Directors is also authorised, to the full extent permissible in law, to adopt the agreements necessary to comply with the obligations derived from this options system in the manner most appropriate for the interests of the Company."
